                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                Hwang C.-S., Kolattukudy P.E.;

"Molecular cloning and sequencing of thioesterase B gene associated wit stimulation of expression of the thioesterase B gene associated wit hormonal induction of peroxisome proliferation.";

J. Biol. Chem. 268:14278-14284(1993).

-I-FUNCTION: Fatty acid biosynthesis chain termination and release the free fatty acid product is achieved by hydrolysis of the the ester by a thioesterase. This thioesterase may be associated wit peroxisome proliferation and may play a role in the production peroxisome proliferation and may play a role in the production.

-I-TISSUE SPECIFICITY: Highest levels in uropygial gland, much low
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             the Buropean Bioinformatics Institute.
